Raid of German Fleet on England Checks Speculation - Periods of Dullness Are to Be Expected During This Constructive Period.

BY BROADAN WALL.

NEW YORK, December 16.—The stock mar-ket to-day dropped into extreme duliness. The day's turnover was only 194,000 shares.

less than half of Tuesday's total.

Reports of the German bombardment of the east coast of England checked specu-lation. This was encouraging as liquidation lation. This was encouraging, as inquination, from London is the one thing which every one is watching closely, the the floor the market's action was called good.

We are in a constructive period, said one keen trader, and periods of exertine dullness are to be expected. Public buying may not be resumed at this level, but, in my opinion, will come to the front on any reaction.

Specialities were strong. Central Leather moved up on revived rumors that the common dividend would be increased by Christians, but on this point the directors differ. Copper stocks were barely steady. The metal holds well at 13½c per pound. Domestic buyers are holding off, but their requirements are knc-r to be heavy.

United States Steel common hung around 5L. The week's trade was discouraging. A reduction in wages would logically be reflected by higher prices.

Several issues had their initial trading today. Goodrich preferred sold at 95, an advance of I points from the July figures Kanching and City Southern preferred gained 35, and National Load common was up 45 from July 20 figures. New York Central, Northern Pacific and Baitimore and Onto each lost about a point. The position of all three was satisfactory.

Bonds: United States Steel is sold below. from London is the one thing which every Bonds: United States Steel is sold below par, and Wabash refunding is were forced down from 33 to 334. This looked like a level of last Friday.

The market opened unchanged to 3 points indicate of any change of status.

In the outside market short-term notes were just a trifle easier, although the underlone was good. On the curb, prices closed weak.

ng such issues as central rican Beet Sugar, was of the German navy's activities in North Sea was received with some ap-nension, and gave rise to fears of further European selling.
Some comfort was found in the foreign
rade figures for November. Exchange marsets reflected little change in conditions beween this centre and condon, while marks tween this centre can be to the control of the steady.

In the stead trade an increase of buying for the coming year was the sole feature. Some inquiry for copper for domestic use

NEW YORK, December 16.—The most significant feature of to-day's heavy and market was the pronounced decrease in the column of trading. Only at rare intervals was there any degree of activity.

Until the closing hour, when the sagging tendency became more manifest, prices at ternately ranged slightly above or below the previous day close. In the final dealings most of the international list and other favorities made new low prices for the current movement.

United States Steel common and preferred were in this class, together with Union and Southern Pacific, Canadian Pacific and American Sinching. NEW ORLEANS. December 18.—The cotton market maintained a good tone throughiout the session to-day in the face of the official report that tierman ships had fired on English coast towns in the North Sea. In the early trading the most active months sold at a net loss of 1 point, but this was followed by a rise of 13 points. The close was at a net gain for the day of 8 to 3 points.

Covering of the short interest, reports of a large spot demand to fill December engagements and heavy bookings of ocean freight room at colten ports were the main sustaining influences. Receipts at the ports were 65:13 bales, while shipments were \$1.04 bales, of which 63:34 were for foreign countries. MONEY GROWS EASIER

Local Capitalists Very Hopeful as to Conditions After Holldays.

Easing of money on the part of financial institutions in the larger cities has been felt to good advantage by head brokers kithin the past few days and judging by local reports. Hitle difficulty will be ray perienced after the holidays in obtaining loans for industrial or really transactions. It is a well-established fact that Southern securifies have been hit hard by the war across the water but the sentiment among the local brikers and brokers is that the esting up of the bank and the knowledge that money can be obtained will have a great effect in stimulating mancial affairs in this section. There has been for the past fay or so active trailing in Atlantic Coast Line and Virgit in Rullway and Power Company preferred. First National Hank and Old Dominion Trust Company.

A resumption in trading is shares indicates the re-establishing of conditions existing prior to the closing of exchanges. Bond prices hold firm in Richmond, and the local mancial situation is growing strong daily.

CHICAGO, December 18.—From advices received through the regular channels on the board of trade, the European war situation was said to be quite unsettled. Considerable wheat was sold on these reports, as the speculative idea is that any decided action would mean the earlier ceasing of hostillities. Were it not for the big export trade in wheat reported from day to day the market for futures would doubtless sell to a much lower level. The losses to-day were \$\frac{1}{2}\$ to \$\frac{1}{2}\$ to \$\frac{1}{2}\$ can be displaying any power to react from bottom prices. Cash sales of wheat were reported at \$1.25.69\$ bushels in all positions, of which 25.00 busnels were sold at Chicago, and of this amount \$5.00\$ bushels were for milling purposes.

There was a marked falling off in the receipts of wheat at primary markets the total to-day being \$1.69.00\$ bushels which was \$29.00\$ bushels smaller than the corresponding day last year. Deeds of Bargain and Sale, Amounting to \$12,390. Amounting to \$12,340.

Corn and oats were lower. The volume of trade in these grains was confined largely to the room trading element. The weather was clear and cold over both belts, and full winter feeding is on in all directions. Western receipts of corn were 1.634,660 bushels, showing a loss of 503,660 bushels compared with a week ago and 493,69) bushels a year ago. with a week ago and 49,000 bushels a year ago.

Beceipts of oats at primary points were 1.15.500 bushels against \$25,000 bushels a year ago. Cash sales of corn at Chicago were 25,000 bushels and of oats, 29,000 bushels of oats were taken by exporters.

An advance in lard was a conspicuous feature in the previous market. Packers led in the buying of this commodity. The liberal increase in the local contract stocks of pork and ribs caused enough selfing to bed; prices down. Closing was heavy. Cash quiet.
